SUMMARY

As a Product Designer, I focus on creating products that people find easy and enjoyable to use. Over the past three years, I've worked on AI, fintech, and consumer products, partnering with developers and stakeholders to turn ideas into polished digital experiences that deliver real value.

PROFESSIONAL EXPERIENCE

Product Designer

Kira AI — Jan 2026 - Jul 2026 — Remote · Nigeria

- Designed end to end UX for Kira AI, a WhatsApp native banking product that has processed over 1 Billion Naira in transactions.
- Built conversational UI flows simplifying money transfers, airtime purchases, bill payments and spend tracking.
- Conducted user research and iterated on designs to reduce friction across core banking flows.
- Collaborated with engineering teams to ship polished, accessible interfaces on tight schedules.

Product Designer

BlueSense AI — Feb 2025 - Jan 2026 — Remote · Canada

- Designed intuitive experiences that helped users discover personalized skincare and beauty products through AI-powered recommendations.
- Improved key user journeys by simplifying complex beauty and healthcare interactions, making it easier for users to find the right products and connect with skincare specialists.
- Worked closely with product managers and developers across time zones to deliver a consistent, user friendly experience across web and mobile.

Product Designer

Y-Queue? — Jan 2024 - Dec 2024 — Remote / Hybrid · Nigeria

- Designed seamless ordering and delivery experiences that helped customers browse restaurants, place orders, and track deliveries with ease.
- Simplified the ordering journey by creating intuitive user flows, wireframes, and polished interfaces in Figma.
- Developed a scalable design system to ensure consistency across customer, vendor, and rider experiences.
- Collaborated with the product team to refine features based on user feedback, improving usability and the overall food delivery experience.

Junior UI/UX Designer

Real Power Studios — Aug 2023 - Oct 2023 — On Site · Lagos, Nigeria

- Designed mobile and web interfaces for fintech and e-commerce clients using Figma, focusing on clean layouts and smooth user flows.
- Assisted the Senior UI Designer and collaborated with developers to ensure final products matched the design vision.
- Participated in design reviews, incorporated feedback, and helped improve usability across multiple digital products.

UI/UX Designer (Intern)

Techskill UK — Mar 2023 - Aug 2023 — Remote · United Kingdom

- Helped improve layouts and user flow for an e-learning dashboard.
- Created mockups and UI elements in Figma.
- Reviewed accessibility and made design suggestions.
- Joined team feedback sessions to improve the product.
